

PRESS RELEASE

ACEA PERÙ AWARDED 60 MILLION EURO TENDER FOR MAINTENANCE OF THE WATER AND SEWAGE NETWORKS IN NORTHERN LIMA

Rome, 22 July 2024 – ACEA International, the Group company that operates overseas in the water sector with around ten million inhabitants in Latin America, including Perù, the Dominican Republic and Honduras, through its subsidiary **ACEA Perù** has won a tender for **maintenance of the water and sewage network in the Northern Lima district of Comas**, benefiting a population of **around 4 million people**.

In the same area, ACEA International is already involved in water business management via participation as a majority shareholder in the **Agua Azul Consortium**, which is concerned with water collection and purification activities. The tender, launched by Sedapal, the firm responsible for water distribution in the Peruvian capital, has a **total value of approximately 60 million Euro and a duration of three years**.

ACEA Perù thus enhances its presence in the country's water business and contributes towards the territory's development for the benefit of residents. This award also testifies to the company's professionalism and technical skills, in the service of an increasingly efficient and sustainable use of water resources.

ACEA, the leading water sector operator in Italy, with 10 million residents served, confirms its international growth strategy in the segment, aimed at consolidating operations in Latin America, in line with the goals set out in the Business Plan. The Group, which has been active for more than twenty years in Central and South America, is today also committed to the Mattei Plan 'Control Room', confirming its vocation at domestic and global level.
